

# PREVENTION FIRST: CARBON MONOXIDE SAFETY

- **PREPARE:**

Equip your space with CO detectors on every level.

- **PROTECT:**

Educate those under your roof about the dangers of CO.

- **INSPECT & PREVENT:**

Ensure proper ventilation and professional repairs of appliances and heating systems.

- Check CO detector batteries annually

# CARBON MONOXIDE KNOW THE SIGNS

NAUSEA

COLLAPSE

DIZZINESS

BREATHLESSNESS

## WHAT TO DO?

Open all windows and doors. Turn off the appliance. Call the Gas Division at **509-962-7124**.

If someone is experiencing symptoms of CO poisoning, **call 911!**
